However, each party shall be responsible for compensating its own representatives and witnesses, and for purchasing its own copy of the written transcript.

ARTICLE VII DISCIPLINE AND DISCHARGE

Section 1.

Disciplinary action may be imposed upon a certified (non-probationary) employee for just cause. During the initial probationary period, the probationary employee may be disciplined, discharged, demoted, laid off, or otherwise dismissed at the sole discretion of the Employer and neither the

reason for nor the disciplinary action may be the subject of a grievance, unless the basis for the alleged violation is pursuant to Article II.

The following procedure of progressive and corrective discipline shall be applied by the City, except the City need not follow progressive and corrective discipline before discharge if the discharge is for theft, deliberate damage to City property, gross insubordination, physical violence, or other similar offenses.

Discipline for offenses not covered above shall only be as follows:

First Offense:	Verbal Warning(s)
Second Offense:	Written Warning(s)
Third Offense:	Suspension(s)
Fourth Offense:	Discharge

Written warnings may be hand delivered to the affected employee, or may be sent by mail to the employee's last known address if no other reasonable means of serving notice is available.

Warnings as herein provided shall be null and void after twenty-four (24) months, shall be removed from the employee's personnel file, and shall not be used as a basis for further disciplinary action. Suspensions as herein provided shall be null and void when there have been no suspensions for the most recent five (5) years of employment, and shall be removed from the employee's personnel file, and shall not be used as a basis for further disciplinary action.

For discipline other than reprimands, the Employer shall hold a pre-deprivation meeting. Prior to notifying the employee of the contemplated measure of discipline to be imposed, the Employer shall notify the Union steward of the meeting and reasonably in advance of such meeting shall provide the steward with the alleged infraction. Employees shall be informed by the Employer of their rights to union representation and shall be entitled to such, if so requested by the employee. The Employer then shall meet with the employee involved and inform him/her of the reasons for such contemplated disciplinary action including any names of witnesses and copies of pertinent documents. The employee and Union representative shall be given the opportunity to rebut or clarify the reasons for such discipline.

Discipline imposed under these procedures shall be subject to the grievance/arbitration procedures.

Section 2.

(a) Appeal Procedure

Oral and written reprimands and suspensions not subject to the jurisdiction of the Civil Service Commission may be processed as a grievance through the regular grievance procedure set forth in this Agreement.

Suspensions subject to the jurisdiction of the Civil Service Commission, demotions and discharges may be appealed to the Civil Service Commission, in accordance with its rules and regulations and applicable law.

(b) Relation to Civil Service

Disciplinary suspension of more than five (5) days, second suspension within six (6) months, and discharges shall be subject to the exclusive jurisdiction of the Civil Service Commission and shall not be subject to the grievance provisions of this Agreement. An employee shall have the right to take up as grievances only those disciplinary actions not subject to the possibility of a hearing before the Civil Service Commission. Nothing herein shall be construed in such a manner as to make the suspension or discharge of any probationary employee the subject of a grievance.

(c) Relation to Grievance Procedure

The grievance provisions of this Agreement and the Civil Service appeals procedure are mutually exclusive and no relief shall be available under *Article V, Grievance Procedure and Arbitration* with respect to any matter which can or could have been submitted to the Civil Service appeals process.

Section 3.

If the Employer has reason to reprimand an employee, it shall be done in a manner that will not embarrass the employee before other employees or the public.

Section 4.

For suspensions and discharges, the Employer shall provide to the employee and the Union written notice of the basis for the discipline prior to the discipline being imposed if the nature of the infraction so allows, otherwise as soon thereafter as practicable.

Section 5.

Demotions shall not be used as a disciplinary measure, however, the parties recognize that circumstances may exist where the interests of the Employer or the employee may be best served by such action and in such cases demotion shall be appropriate.

ARTICLE VIII HOURS OF WORK AND OVERTIME

Section 1. Application

This article is intended to define the normal hours of work per day per week and shall not be construed as a guarantee of hours of work per day or per week, or a guarantee of days of work per week.

Section 2. Workday

Seven and one-half (7½) consecutive hours of work excluding a one hour lunch shall constitute the normal workday.

Section 3. Workweek

The normal workweek shall consist of thirty-seven and one-half (37½) hours within a payroll week.

Section 4. Work Shift

The normal work shift shall be 8:00 a.m. to 4:30 p.m. or 7:30 a.m. to 4 p.m. as designated by the employer. Nothing contained herein shall preclude the Employer from changing or modifying shifts based on operational needs after notice to the union whenever possible. In emergency situations, the Employer may change or modify shifts without notice. Shift adjustment for night meetings such as City Council shall be by rotation between unit members. One member would work a regular shift adding overtime for the meeting, while the other member would work a modified noon to 8:00 p.m. shift.

Section 5. Overtime

The payment of overtime hours in excess of thirty seven and one half hours (37.5) in the work week shall be paid in cash or compensatory time at the employee's discretion. All overtime will be at the time and one half (1 ½) rate except where otherwise noted in this Agreement.

Employees held over or called in prior to their regular shift shall be compensated at the time and one-half rate for all hours worked in excess of their regular shift. Employees required to work on Saturdays shall also be compensated at the time and one-half rate, unless a Saturday is a part of the employee's assigned 37.5 hour work week per Section 4. All work performed on Sundays or Holidays shall be at the double time rate. Whenever possible, Audio-Visual employees shall receive twenty-four (24) hours advanced notification prior to the scheduling of non-emergency overtime. When 24 hours is not given, employees will receive double time for the first two hours worked. Employees shall be "called in" to work outside of regularly scheduled hours according to seniority in the bargaining unit. Employees who are called in will receive a minimum of two (2) hours pay at the applicable overtime rate. Code Enforcement positions shall receive as much

notice as operationally possible for overtime. Overtime is at the time and one-half rate except on Sundays or on holidays, which shall be at the double time rate of pay.

Employees may not accumulate more than one hundred twenty (120) hours of compensatory time.

Any such compensatory time off shall be taken at a time mutually agreed upon by the employee and the immediate non-bargaining unit supervisor during the contract year in which it was earned. Compensatory shall be taken in increments of not less than one (1) hour. Such approval shall not be capriciously withheld and will be considered on the basis of operational need. No more than thirty (30) hours of compensatory time off may be taken from Memorial Day to Labor Day, unless otherwise agreed by the non-bargaining unit supervisor. In the event that such compensatory time off is requested but not allowed to be taken by the end of the contract year, the employee shall receive cash payment for all accumulated compensatory time at the hourly rate in effect at the time it was earned. The employee may request up to 37.5 hours of compensatory time to be carried over to the next contract year. All carried over compensatory time must be scheduled during the following year. All accumulated compensatory time hours on the books will be paid out at retirement.

Section 6. No Pyramiding

Compensation shall not be paid more than once for the same hours under any provision of this Agreement.

Section 7. Temporary Assignment

An employee placed on temporary assignment to a higher paid classification in the bargaining unit shall receive the current rate of pay for the higher classification or 5% (whichever is greater) for all hours worked (excluding any leave time) and be subject to all rules and regulations pertaining to that classification. An employee placed on temporary assignment to a higher paid classification outside of the bargaining unit shall receive a 5% increase from the employee's current hourly rate of pay for the higher classification for all hours worked (excluding any leave time) and be subject to all rules and regulations pertaining to that classification.

Completion of certain certifications is a condition of employment, meaning employees must obtain and maintain them. Employees should obtain the required certifications during the probationary period. Any employee who does not possess the requisite certification(s) by the completion of the probationary period shall have the probationary period extended for ninety (90) days to allow an opportunity to complete the certification. The failure to obtain the certification prior to or during this ninety (90) day period and maintain it shall result in the termination of employment.

Section 2. Layoff/Application of Seniority

In the event the Employer determines a reduction in force is required, employees with the least seniority in the affected classification shall be laid off first. Employees subject to layoff from the affected classification shall displace less senior employees in the next lower rated classification covered by this Agreement. Employees displaced pursuant to the preceding sentence shall be laid off.

In case of a layoff, employees will be notified in writing as soon as practical but no later than fourteen (14) days before the effective date of the layoff. Recall shall be by seniority in the affected classification and any employee laid-off shall remain on the recall list for 24 months. The Employer agrees to furnish the representatives of the Union a list of employees on layoff upon request.

In the event a vacancy occurs in a classification covered by this Agreement, employees in the next lower rated classification(s) who possess the ability and qualification to perform the work to be assigned shall be preferred. Vacancies shall be filled based upon an individual's qualifications, experience, knowledge, skills and ability to perform the work in question without additional training. Among such employees who are relatively equal in ability and qualifications, the employee with the greatest seniority shall be given preference. Where no qualified employee in a lower rated classification is available, the Employer may fill the vacancy by any means available to it after discussing the qualifications and seniority of all applicants in the bargaining unit with the Union Business Agent and/or steward.

ARTICLE XI HOLIDAYS

Such approval shall not be capriciously withheld. In no event will vacation leave in excess of one (1) day be granted with less than five (5) days' notice to the Employer, unless otherwise approved by the Employer and subject to the operational needs of the Employer. For purposes of this section, the vacation year shall begin on January 1st and end on December 31st.

In the event a holiday falls during an employee's vacation, that day shall be considered as the holiday and shall not be charged against the employee's vacation accrual.

Employees shall designate vacation preference for the vacation year between January 1st and March 1st. Vacation dates shall be granted based on seniority within the unit. Vacation dates chosen by the employees after March 1st shall be on a first come, first serve basis. However, because of the nature of the work and the requirement that the orderly performance and continuity of municipal services be maintained, it may be necessary to limit the number or prohibit employees from taking vacations during a particular period or at the same time.

Current practice for vacation requests and granting vacations shall be followed for Inspector positions

In no event will more than one (1) employee per shift be granted vacation on the same day. Employees who retire or resign from the service of the Employer shall be compensated for unused vacation leave at the time of separation provided two (2) weeks prior notice is afforded the Employer in writing.

An employee may be allowed time off with pay to attend the funeral or memorial service of a fellow worker who was currently employed in the same department provided this permission is granted by the Appointing Authority. If the Employer has reason to suspect abuse, the Employer may require satisfactory evidence of the need for such absence.

Section 4. Family Medical Leave

Employees who have worked for at least twelve (12) months and for at least 1,250 hours during the last twelve (12) months may request leave pursuant to the Family and Medical Leave Act. Leaves may be requested for the birth or adoption of a child or for a serious health condition. Employees may receive a leave to take care of themselves or an eligible family member who has a serious health condition; that is, an illness, injury, impairment, or physical or mental condition that involves inpatient care in a hospital, hospice, or residential treatment facility or continuing treatment by a health care provider.

An eligible employee is entitled to a maximum of twelve (12) weeks of Family or Medical Leave in a twelve (12) month period. A "rolling" twelve (12) month period measured backward from the date an employee uses any FMLA leave shall be used for this purpose. Employees will be required to exhaust all paid benefit time (vacation, personal days and sick leave) as part of their FMLA leave and such time will count toward the twelve (12) week limit.

Leaves to take care of a serious health condition may be taken on an intermittent or reduced schedule basis. Leaves for the birth or adoption of a child must be taken within the first twelve (12) months of the date of birth or placement.

Employees must request a leave by giving the city notice at least thirty (30) days in advance of a foreseeable leave, and as soon as practicable for an unforeseen leave.

The Employer may require employees requesting a leave to care for a serious health condition to submit medical verification from a health care provider. The employee may also be required to undergo an examination by an impartial physician. Such examination shall be paid for by the Employer. Upon return to work, the employee shall submit a fitness-for-duty certificate from a qualified health care provider.

During a Family or Medical Leave, the Employer will continue to provide medical and dental coverage at the same premium rate as if the employee was still on active duty. The employee will be required to maintain individual health and/or dental premiums, if any. Payment of the employee's premium shall be due on the first day of the month and in no case later than the tenth of the month. Coverage shall cease immediately for any employee whose payment is more than thirty (30) days late.

After a leave, the employee will be restored to the position he held prior to the leave or to an equivalent position with equivalent pay and benefits. An employee who fails to return from an FMLA leave will be required to reimburse the City for the Employer's portion of the health insurance premiums paid during the leave.

If the Employer has reason to suspect abuse, the Employer may require satisfactory evidence of the need for such absence.

Section 5. Medical Leave

Employees who have exhausted their accumulated sick leave days and completed a leave pursuant to the FMLA but are unable to report to or back to work because of a start or continuation of illness, injury or pregnancy related disability, may receive a disability leave without pay. The Employer will not arbitrarily deny such leave request. However, an employee may choose to exhaust vacation and personal leave and compensatory time prior to receiving said leave. To qualify for such leave, the employee must report the disability as soon as the need for such leave becomes known, and prior to receiving such leave and thereafter furnish, on a monthly basis to the department head or designee, a physician's written statement of the nature of the disability and the estimated length of time that the employee will be unavailable for work together with a written application for such leave. Such leaves will not be granted for periods in excess of three (3) months

but may be extended upon the written request of the employee for an additional period of up to three (3) months, at the Employer's discretion. Such leave will not be arbitrarily or capriciously denied.

Section 6. Military Leave

APPENDIX A

MEMORANDUM OF UNDERSTANDING

Updates to Building & Zoning, and Housing Division Inspector Classifications, Required Certifications, and Promotional Path

Purpose:

To create a structure for advancement opportunities within inspector classifications. Advancement would be predicated on demonstrated mastery of required knowledge and ability to verify requirements of various conditions/situations inspectors would be expected to handle through certification and experience. The majority of certifications will be through the International Code Council (ICC), with some certifications for plumbing inspectors being through the State of Illinois.

Required certification:

Required certification may be one or a group of certifications. Where a certification is shown in **bold** this indicates it as a combination designation, which is awarded by the ICC upon completion of the certifications listed under it for the given inspector classification. Even though advanced classifications require multiple ICC certifications to achieve, the employee is only entitled to one increase which is based on the classification level they are advancing into.

If at any time an employee's required certification lapses the employee shall have 60 days to bring their required certification current or shall be demoted to the next level down until their required certification is renewed. In the event a Level 1 allows their required certification to lapse they will have 60 days to bring their required certification current or they shall forfeit their Level 1 compensation increase. Where an employee of any level classification fails to renew their required certifications within a total of 120 days from the time their required certification lapsed they shall be subject to disciplinary action up to termination.

****Plumbing inspectors hired on or before 2023 shall be exempt from obtaining the required certification for a Plumbing Inspector 1; in addition they are not eligible for the level compensation increase for a Plumbing Inspector 1 should they obtain the required certification, however, they will be eligible for the level increase for Plumbing Inspector 2 and Plumbing Inspector 3 should they meet the requirements as set forth in the Advancement section below.**

Advancement:

The employee must have met all requirements for advancement before the advancement will be granted. This includes meeting the required years of service and having obtained the required certifications for that classification. Only once these requirements have been met will the employee be granted the compensation increase for the respective level being advanced into.

Level 2 requirements:

Three (3) years of service as a Level 1 of the same classification
Required certifications obtained as shown in Appendix B

Level 3 requirements:

Two (2) years of service as a Level 2 of the same classification
Required certifications obtained as shown in Appendix B

Level compensation increases:

Level 1 – \$1.00 per hour, shall be granted when the employee obtains the required certification for their classification during their probationary period.

Level 2 – \$1.50 per hour (refer to the advancement section above)

Level 3 – \$2.00 per hour (refer to the advancement section above)

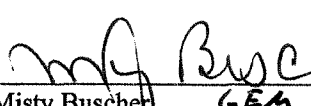

Additional certifications:

Additional certifications may be obtained to a maximum of two (2) additional certifications at \$0.50 per hour increase for each certification. All certifications listed under the required certifications column of Appendix B will qualify as an additional certification so long as the certification is for a higher level of classification from that which is currently held by the employee and aside from those certifications already held by the employee, or of a classification different from that which is currently held by the employee.

Modules will not be counted as additional certifications, as the ICC does not allow for modules to be renewed.

Should an employee obtain a certification which is required for an advanced level of the same classification which they currently hold the employee shall be granted the compensation increase for an additional certification if they do not currently meet the other requirements for the advanced level and have not surpassed the maximum allowable number of additional certifications eligible for a compensation increase. At which point the employee meets the requirements for the next level advancement and have not surpassed the maximum allowable number of additional certifications eligible for a compensation increase they will be grant an increase in compensation between the respective level increase and that of the current increase they have for their additional certification. The certification which is now being counted towards the required certification for the new level of the employee will no longer count towards the maximum number of additional certifications held by the employee.

Agreed:
